The decision in one view

A visual companion to the comprehensive study. Existing October 10 evidence is reorganized; no new market research is added.

$409,990

CURRENT ENTRY ASK

Two tracked Oconee interiors. Asking price, not a closing.

$390,000

RECENT OCONEE RESALE

218 Maycrest closed September 25. Concessions unknown.

10

OCTOBER NET CONTRACTS

The goal requires sufficient released homes and a verified funnel.

Proposed price ladder

$399,990
Oconee interiors

$409,990
Standard Forsyth

$419,990
End / premium

Recommendation: use the initial price tests above after margin review. If qualified traffic is sufficient but interiors do not contract, test one at $389,990. Future larger releases: $439,990-$449,990, with address-specific support.

Read the evidence by color

Navy: observed asks. Teal: analyst tests or comparisons. Gold: resale evidence. Charts show gross prices; unverified incentives are excluded.

Five tracked listings do not establish the full community inventory or absorption. Detailed data, dated change log, limitations and source links follow in the full-study appendix. Sources [2-7,14,31-33,38].

Where the price gaps are

Current advertised asks versus proposed initial tests. Dollar amounts are address-specific; proposed changes remain recommendations.

$124,000

FIVE-HOME PRICE TEST COST

Gross reduction from current asks; 5.7% before incentives.

$409,990

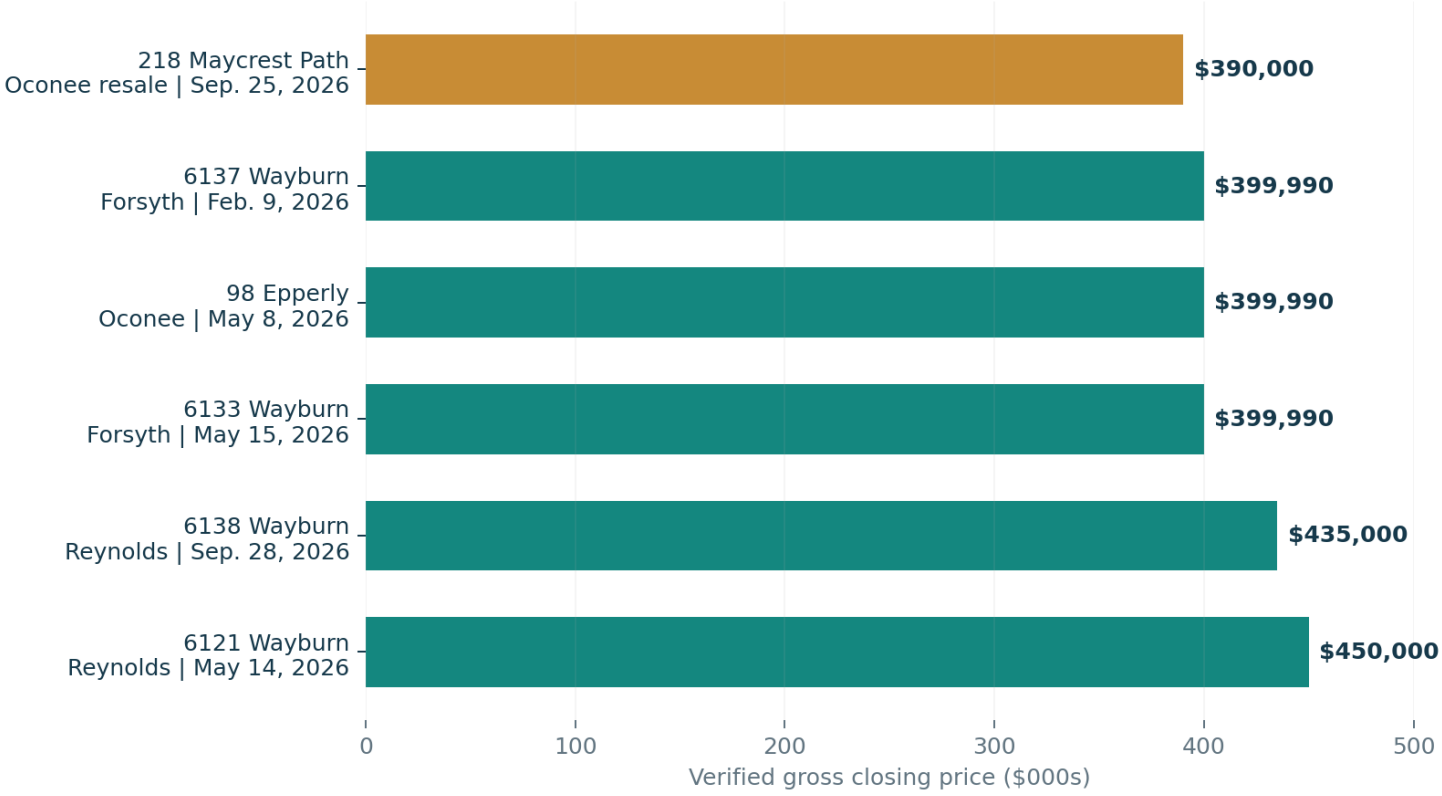

PROPOSED AVERAGE ASK

Five-home total: $2,049,950. No achieved ASP is implied.

Observed: 6120 Wayburn reduced $440 to $459,990; four other tracked asks unchanged. Sources [2,3,31-33]. Reduction calculations use October 10 asks.

What buyers actually paid

Six verified gross same-community closings. Resale and builder-era transactions are distinguished; options and concessions remain unknown.

$19,990

ASK OVER RECENT RESALE

Current Oconee interior ask minus the $390,000 resale.

$399,990

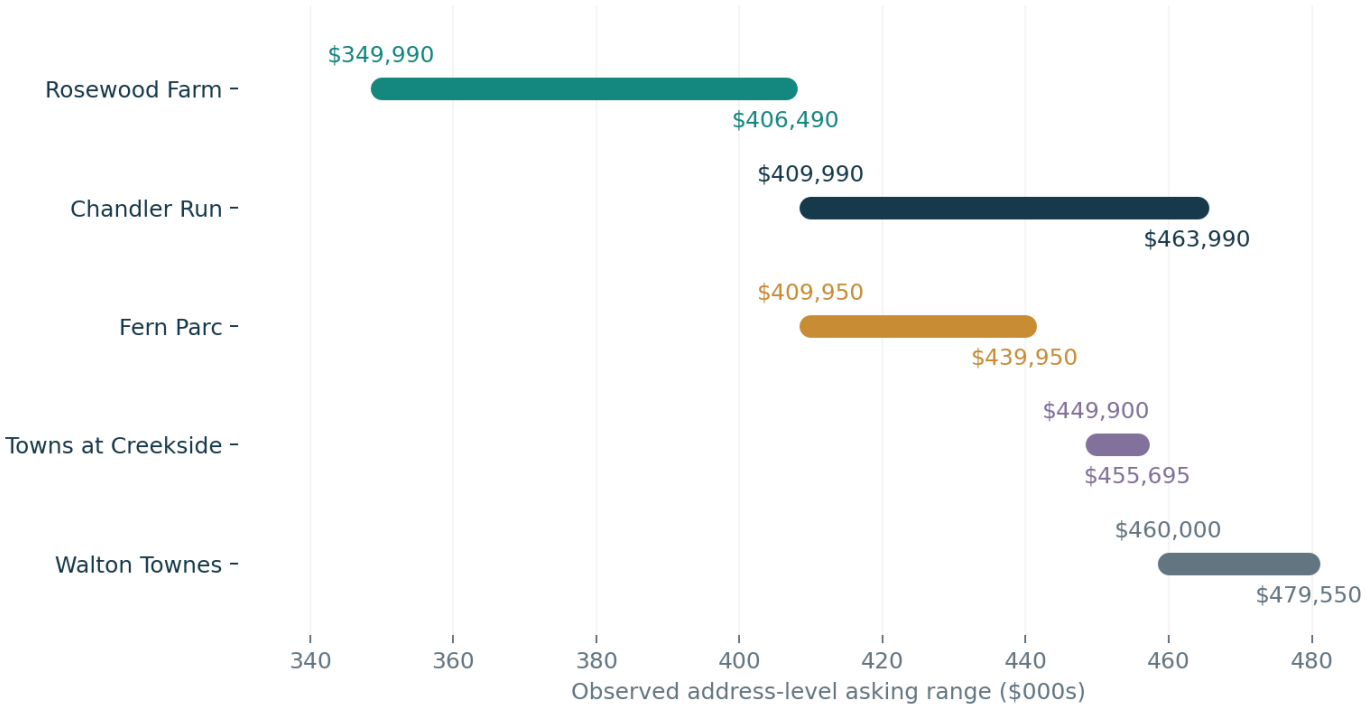

SELECTED-SAMPLE MEDIAN

Six-sale mean: $412,495. This is not a complete community statistic.

Sources [4-7,14,38]. The September 25 resale controls over a portal label using its $399,900 list price and October 9 date. Older closings need time, condition and option review.

The competitive price shelf

Observed asking ranges for the sampled available addresses. Geographic, school, story and option differences require separate judgment.

The strongest same-plan value alternative

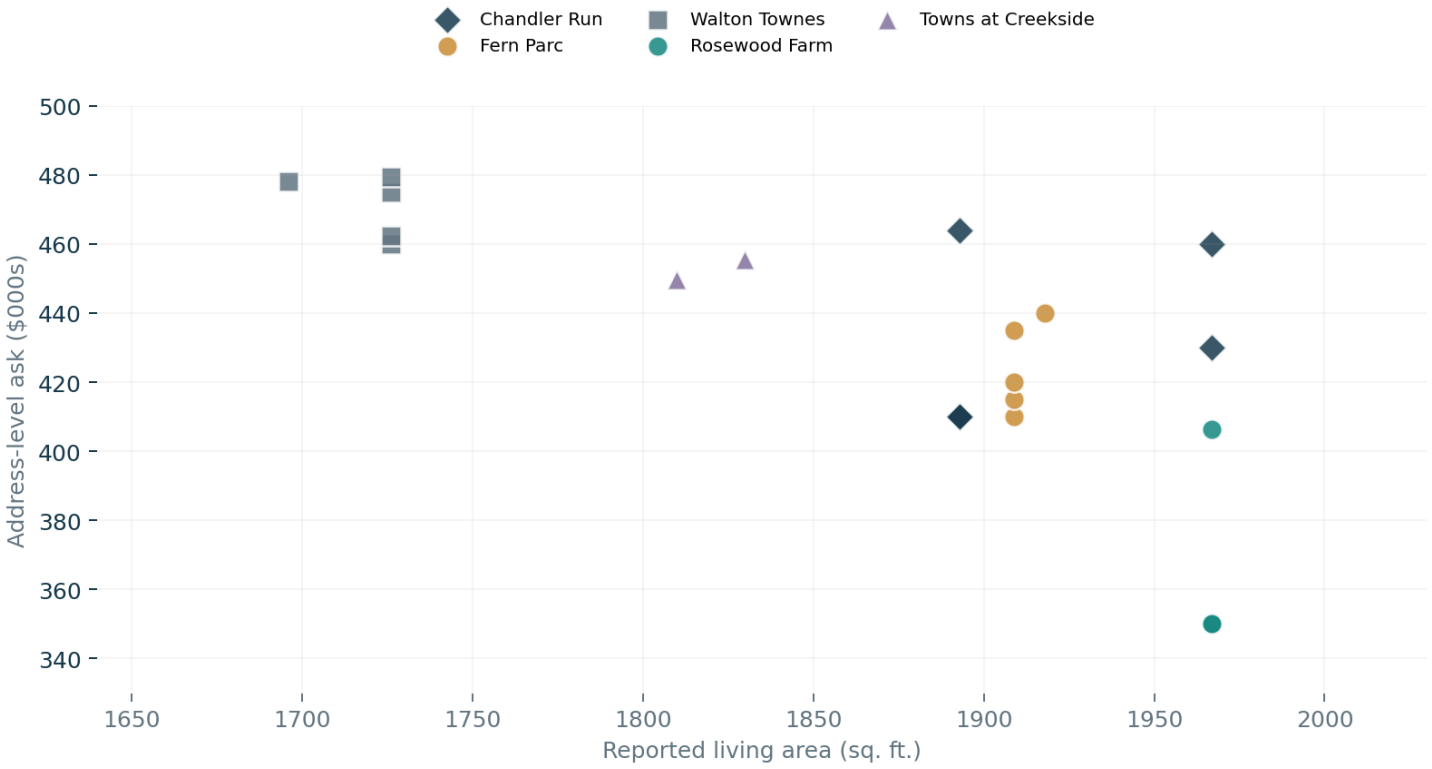

Rosewood Farm offers a $349,990 Forsyth: $80,000 below Chandler Run's $429,990 standard Forsyth. The difference is a price gap, not a measured location premium.

Other tiers: Waterside townhomes start at $625,900. The Views from Browning is coming soon from the $700,000s; neither belongs in entry-price averaging. Trinity Park currently shows no active resale.

Sources [15,17,19-26]. Rosewood entry homes show November 30 delivery. Creekside pages conflict on one versus two available homes. Absorption is not inferred from counts.

Price versus living area

Each marker represents a sampled address-level ask. Overlapping markers mean similar or identical inputs; no fitted valuation line is used.

$216.58/sf

CHANDLER RUN ENTRY

Oconee: $409,990 / 1,893 sq. ft.

$214.75/sf

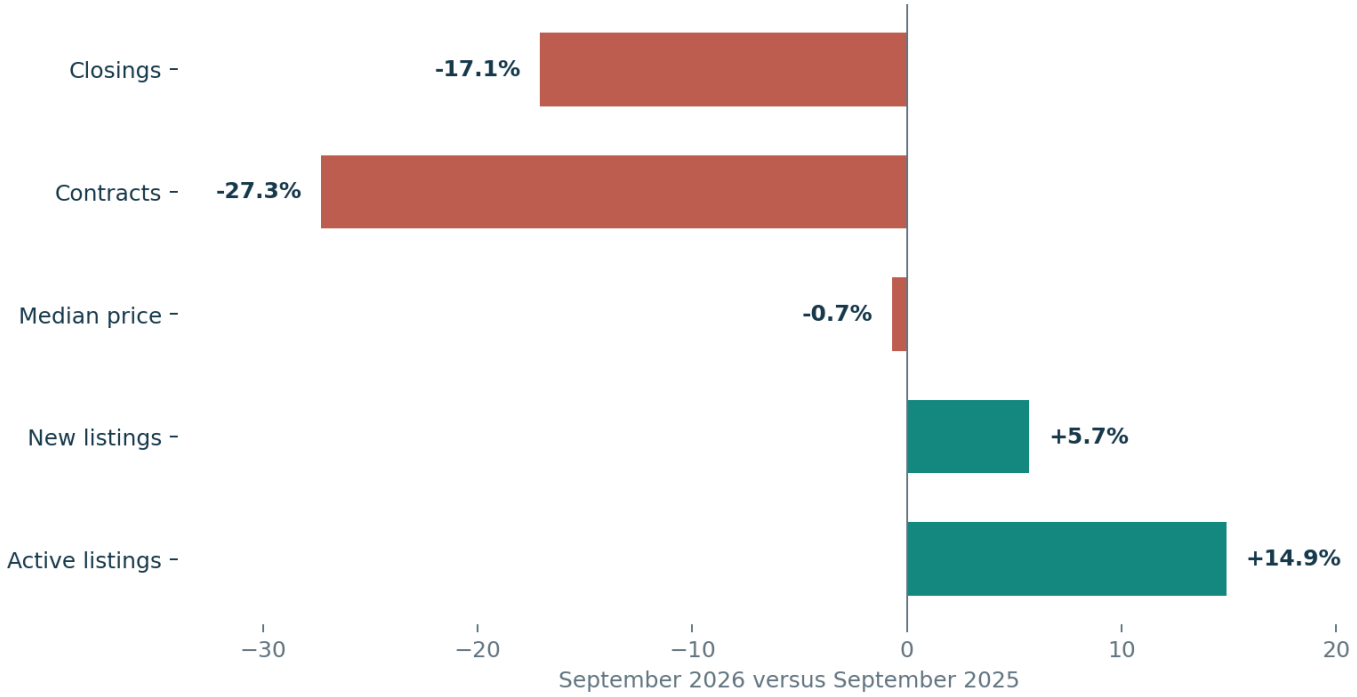

FERN PARC ENTRY

Four-bedroom example: $409,950 / 1,909 sq. ft.

Rosewood entry Forsyth: $177.93/sf. Walton examples: approximately $267-$282/sf. These differences do not quantify location, school, condition or two-story premiums. Sources [2,3,15,17,20,21,31-33].

Demand softened as supply grew

Gwinnett residential snapshot for September 2026. Countywide mixed-product context; it is not a townhome-only or Chandler Run measure.

658

CLOSINGS

-17.1% versus last year.

523

CONTRACTS

-27.3% versus last year.

3,597

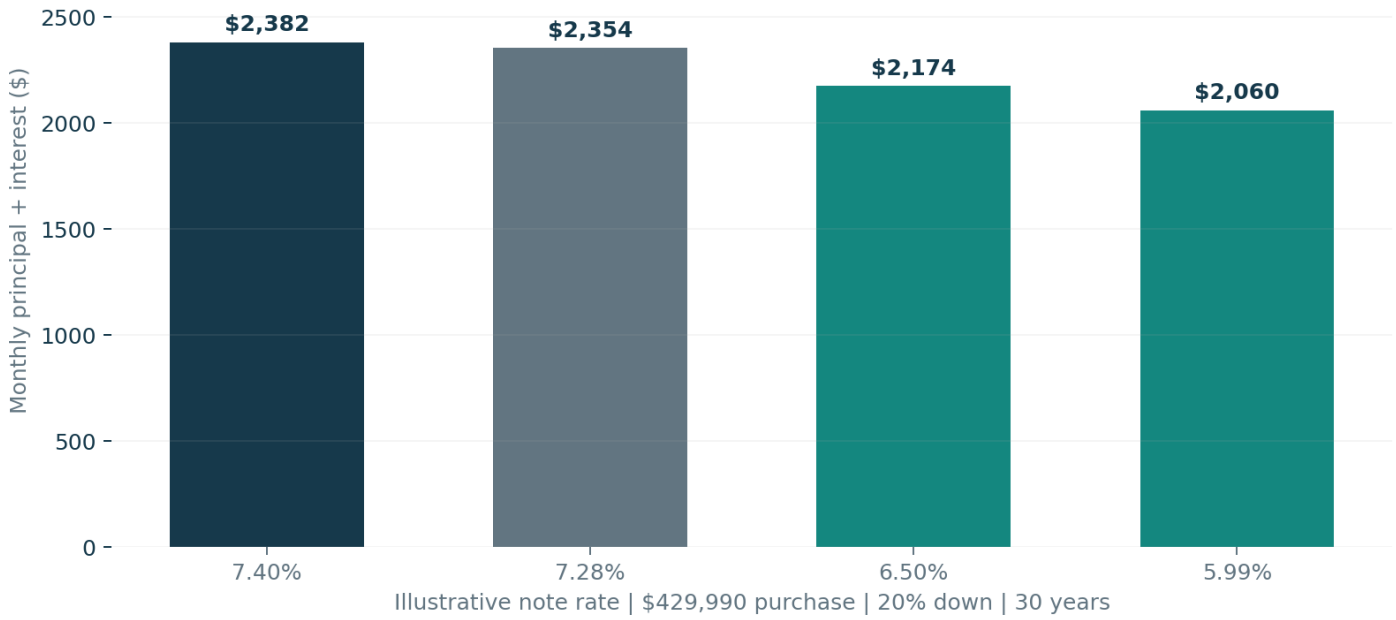

ACTIVE LISTINGS

+14.9% versus last year.

Median sale price: $409,000 (-0.7%). The live Georgia MLS September figures replaced 640 closings and a $407,995 median captured previously. Active / monthly closings = 5.47, a rough turnover ratio rather than published months of supply. Source [27].

Payment matters as much as price

Freddie Mac benchmark: 7.40% for 30 years and 6.73% for 15 years as of October 8. Illustrative calculations are not lender offers.

$322 / month

5.99% VERSUS 7.40%

Illustrative P&I; savings at $429,990 and 20% down.

$55 / month

$10,000 PRICE REDUCTION

Approximate P&I; savings at 7.40%, 20% down.

Budget proposal: up to $10,000 support per home, lender-priced after eligibility review. No current rate, APR, credit amount, deadline or stacking terms are verified. P&I; excludes taxes, insurance, HOA, mortgage insurance and points. Sources [28,29,35].

A plan for ten contracts

Planning sensitivities, not a sales forecast. The goal is modeled as net contracts; a closing goal also requires completion and lender readiness.

3.33 / week

IF TEN STILL REMAIN

October 11-31 pace. Actual month-to-date results unknown.

12 gross

10% CANCELLATION CASE

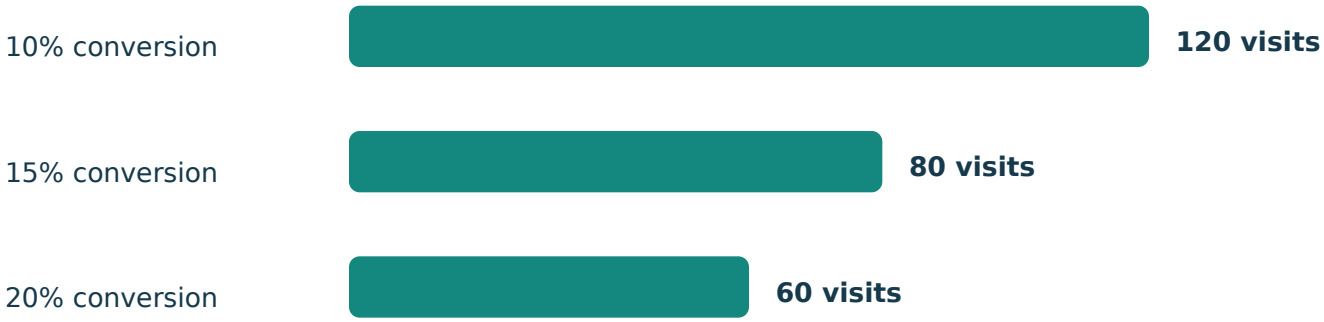

10 / 0.90 rounds up. Assumed, not measured.

5 tracked

CAPACITY TO VERIFY

At least ten contractable releases are needed.

Qualified visits for 12 gross contracts

Immediately: verify release capacity, margin floors, exact options, completion dates and lender terms.
After seven days: review qualified traffic, conversion and lost-sale competitor addresses; consider the one-home fallback only when traffic supports a price diagnosis.
Weekly: reconcile gross contracts, cancellations, net contracts and net proceeds by home.

Full evidence follows

The following 14-page appendix preserves the complete October 10 study, address tables, change log, calculations, execution plan and source register. Source numbers used above refer to that register.

CHANDLER RUN

Comparative Market Analysis & Community Positioning

Gwinnett County / Tucker, Georgia
Research date: October 10, 2026
Prepared as a builder-oriented pricing and competitive study

Executive assessment

Chandler Run is competitive at its discounted entry price, but current price dispersion remains wide. Five tracked homes remain active in public MLS; builder and portal totals conflict, so no complete inventory count is asserted. Two Oconees are $409,990; the Forsyth offerings are $429,990 and $459,990 after a $440 reduction at 6120 Wayburn; an Oconee end unit is $463,990. [2,3,31-33]

Six verified same-community closings now include a September 25 Oconee resale at $390,000, three builder-era transactions at $399,990, and two Reynolds sales at $435,000 and $450,000. These are gross recorded sales, with seller concessions unknown. [4-7,14,38]

Decision	Finding
Entry position	The $409,990 Oconee competes near Fern Parc's active $409,950-$439,950 offerings; its former $399,950 entry is now pending.
Internal price spread	$54,000 separates the $463,990 Oconee end unit from the $409,990 Oconees: 13.2%. This is an asking-price spread, not a measured end-unit adjustment.
Same-plan alternative	A $349,990 Forsyth at Rosewood Farm is $80,000 below the $429,990 Chandler Run Forsyth. Location and specific options must justify that 22.9% difference.
Market pressure	Gwinnett September contracts fell 27.3% year over year; active listings rose 14.9%. Financing and net price deserve immediate attention.

Volume objective: pursue 10 net contracts in October with an analyst price test of $399,990 for Oconee interiors, $419,990 for the end unit and premium Forsyth, and $409,990 for the standard Forsyth. This is an aggressive proposal, not a sales guarantee or an approved price change. The latest $435,000 Reynolds closing requires a careful $439,990 future-release test.

Evidence scope: public builder pages, Georgia MLS public records, MLS syndication, and Freddie Mac. No authenticated FMLS/GAMLS export, internal sales ledger, live competitive shop, concession ledger, or lot-cost schedule was available. Community absorption, cancellation rates, exact remaining lots, and incentive-adjusted value cannot be established from this sample.

Refresh log | October 10, 2026

Comparison baseline: Chandler_Run_CMA_2026-10-08.pdf. This edition preserves the comprehensive scope and 10-contract pricing scenario. Changes describe verified public evidence, not activity inferred from listing counts.

Item	October 8 edition	October 10 refresh
Subject asking prices	Five tracked asks at $409,990-$463,990; 6120 Wayburn at $460,430.	6120 Wayburn reduced $440 to $459,990; the other four tracked asks are unchanged. Homes.com now claims eight move-in-ready homes but exposes only three cards. No absorption is inferred. [2,3,31-33,35]
Same-community resale	Five verified closings in the evidence set.	218 Maycrest Path is newly verified as a resale closing at $390,000 on September 25. The portal incorrectly displays its $399,900 list price and October 9 sold date; the primary MLS record controls. [35,38]
Market statistics	September shown as 640 closings and $407,995 median.	Georgia MLS revised/corrected the September page to 658 closings and a $409,000 median; contracts remain 523 and active listings 3,597. [27]
Competitors	Trinity showed two $449,900 resales; Creekside 2564 States at $472,900.	Trinity now shows no active resale. Creekside community results show 2564 States at $449,900 and 2562 States at $455,695, although its 24-foot collection page exposes only the first home. [19,21]
Mortgage benchmark	7.40% / 6.73% as of October 8.	No newer Freddie Mac weekly release; 7.40% / 6.73% remains current. [28]
Plans / incentives	Forsyth plan start $460,430; current incentive details unavailable.	Portal Forsyth plan start is now $459,990. Public incentive language still omits rate, credit, deadline and stacking terms. [29,35]

No newly substantiated competing community was added. All seven named competitors were rechecked; page-specific stale or unavailable fields are identified in the source register. No contacts, listing edits or pricing actions were taken.

1 | Subject community and product

Attribute	Verified public information
Builder / address	Taylor Morrison; sales office at 6162 Wayburn Street, Tucker, GA 30084. Gwinnett County is confirmed in the individual MLS records. [1,2]
Product	Three-story townhomes with two-car garages. Four plans were identified September 30; the October 10 portal displays three plan cards. [1,35]
Amenity offering	Gated entry, pool, cabana, dog park, fire pit and butterfly garden. September 30 builder evidence said the pool and related amenities were open; not newly verified onsite. Some MLS remarks still say planned; verify operational status onsite. [1,2]
Schools	Listed assignments: Arcado Elementary, Trickum Middle, Parkview High. Confirm each address with the district before buyer representations. [2,3]
HOA	$1,500 annually ($125/month equivalent) in MLS. An additional $1,500 initiation fee appears in a Forsyth syndicated listing; confirm current governing documents. [2,3,8]
Location interpretation	Tucker mailing address spans county boundaries. Do not combine Gwinnett/Parkview and DeKalb/Tucker-school product without an explicit location adjustment.

Plan	Beds / baths	Sq. ft.	Public pricing basis
Oconee	3 / 3.5	1,893	Portal start / QMI from $409,990
Forsyth	3 / 3.5	1,967	Portal plan start $459,990; active QMI $429,990
Tifton	4 / 3.5	2,340	Portal start $453,990
Reynolds	4 / 3.5	2,375	No current starting price verified

Plans [1,35]: builder details carried from September 30; portal starting prices rechecked October 10. The Forsyth portal plan start is now $459,990 while 6122 Wayburn remains an address-level $429,990 offering. Base-plan pricing, completed inventory pricing and optioned-home pricing are distinct; a starting price is not an available finished-home quote.

Product implications: lower-level guest suites and multiple full baths support flexible office/guest use. Three flights of living space create a different shopping decision than two-story product. Evaluate stair tolerance, usable bedroom dimensions, garage storage, rear privacy and outdoor space during competitive visits.

Unresolved: total approved homesites. One portal gives both 208 and 212 in the same FAQ. Neither is adopted here; obtain the approved plat and current lot roll. [9]

2 | Current Chandler Run inventory

Address / plan	Sq. ft.	Ask	$/sf	Delivery
100 Epperly Way Oconee	1893	$409,990	$216.58	Ready now
102 Epperly Way Oconee	1893	$409,990	$216.58	Ready now
106 Epperly Way Oconee	1893	$463,990	$245.11	Ready now; end unit
6122 Wayburn Street Forsyth	1967	$429,990	$218.60	October completion (MLS)
6120 Wayburn Street Forsyth	1967	$459,990	$233.85	October completion (MLS)

All five tracked addresses were rechecked available on October 10 through Georgia MLS public pages. The full builder page remained unavailable; these five are a tracked sample, not total released or unsold inventory. Homes.com now says eight move-in-ready homes but exposes only three address cards, so the portal count is not used to infer releases, sales, cancellations or absorption. [2,3,31-33,35]

Comparison	Calculated spread	Interpretation
106 vs. 100/102 Epperly	$54,000 / 13.2%	Same nominal plan and size; end position and options must be separated from promotional discount effects.
6120 vs. 6122 Wayburn	$30,000 / 7.0%	Same nominal plan and size; one is advertised with no rear neighbors. No matched-sale evidence establishes the value of that difference.
Median of five asks	$429,990	Describes advertised mix only; not market value or achieved community ASP.
Unweighted mean ask	$434,790	Three Oconees and two Forsyths; excludes unadvertised homes and future releases.

Price reductions: 6120 Wayburn was reduced $440, from $460,430 to $459,990. The other four tracked asks did not change. Prior builder displays showed $47,000 off 100 Epperly, $49,000 off 102 and $33,390 off 6122. Homes.com instead uses $429,990 as the prior 100 ask, implying $20,000. Original-list and later-price baselines differ. These are asking-price reductions, not concessions. [1,10,31,34,35]

Action: make the website, MLS, onsite price sheet, lender flyer and CRM quote use the same address-level price. Never stack a published price reduction and an incentive unless written terms explicitly permit both.

The September 30 builder page produced invalid "$NaN" payment displays; a fresh builder payment quote remains unavailable. Use a dated lender worksheet for actual payment comparisons. [1]

3 | Same-community closed-sale evidence

Address / plan	Closed	Sq. ft.	Gross sale	$/sf	Source
218 Maycrest Path Oconee resale	Sep. 25, 2026	1893	$390,000	$206.02	[38]
6138 Wayburn Street Reynolds	Sep. 28, 2026	2375	$435,000	$183.16	[14]
6137 Wayburn Street Forsyth	Feb. 9, 2026	1967	$399,990	$203.35	[4]
98 Epperly Way Oconee	May 8, 2026	1893	$399,990	$211.30	[5]
6121 Wayburn Street Reynolds	May 14, 2026	2375	$450,000	$189.47	[6]
6133 Wayburn Street Forsyth	May 15, 2026	1967	$399,990	$203.35	[7]

Use the plan-specific evidence and separate builder sales from resales. Oconee: one builder-era $399,990 closing plus the $390,000 resale. Forsyth: two $399,990 closings. Reynolds: $435,000 and $450,000 closings. The resale is $19,990 below current Oconee interior asks and is direct substitution evidence, but its condition, buyer credits and original option package remain unknown.

The six-sale median is $399,990 and mean is $412,495. Their pooled weighted gross price is $198.47/sf. Mix changes explain sample shifts; no community trend is inferred. These describe this selected evidence sample, not a complete Chandler Run market statistic. The 218 Maycrest record closed September 25, despite a portal labeling it sold October 9 at its $399,900 list price. [35,38]

Price-history example	Evidence	What it means
6133 Wayburn	Originally listed $456,990; closed $399,990. Gross difference: $57,000, or 12.5%. [7,11]	Opening asks overstated what this transaction ultimately achieved. Concessions may create further differences.
6121 Wayburn	Originally listed $478,990; last visible ask $445,990; closed $450,000. [6]	93.9% of original ask versus 100.9% of last ask. The denominator materially changes the story.
Time to contract	98 Epperly: March 12 listing / March 22 pending. 6121: January 4 / April 7. [5,6]	Approximately 10 versus 93 calendar days. This is selected property history, not verified MLS DOM or average absorption.

Excluded pending verification: Homes.com reports 6123 Wayburn at $520,010 and 6105 Wayburn at $472,990 with sold labels. The 6138 conflict is resolved in favor of the primary MLS $435,000 September 28 closing. Portal sold labels at 96, 104 and 101 Epperly remain unverified and excluded. The newly verified 218 Maycrest resale uses the Georgia MLS $390,000 / September 25 record, not the portal list-price/date label. [12-14,35,38]

4 | Competitive community matrix

Community / builder	Evidence / price	Role in CMA
Fern Parc / Richardson Housing Group Norcross, Gwinnett	Active $409,950-$439,950; five displayed homes, 1,909-1,918 sf. Three additional homes display pending. Gated; 4-5 bedrooms, 2-3 stories. [15]	Primary current new-home competitor; strong bedroom count and two-story alternatives.
Walton Townes / Crawford Creek Tucker, DeKalb	$460,000-$479,550 builder examples; 1,696-1,726 sf. Two living levels; 32-home enclave. [17]	Primary geographic new-home competitor; smaller homes with closer-in positioning.
Trinity Park / Lennar-built resale Tucker, DeKalb	No active resale shown on October 10. Prior $449,900 offerings are no longer displayed; no sale is inferred. [19]	Recent-build resale watchlist; currently no visible active competition.
Rosewood Farm / Taylor Morrison Lawrenceville, Gwinnett	Forsyth from $349,990 / 1,967 sf; 96/102 Wilder due Nov. 30. Reynolds from $437,990 / 2,375 sf. HOA $107/month. [20]	Same-builder / same-plan value alternative; secondary geography, not a direct location match.
Towns at Creekside / Lennar Doraville	20-foot plans from $450,900. Community results show 2564 States at $449,900 and 2562 at $455,695; 24-foot collection exposes only the first. [21]	Secondary commuter-market alternative; public builder pages conflict on count.
Waterside / Providence Group Peachtree Corners, Gwinnett	Townhomes from $625,900 / 2,162 sf. Broader luxury product and amenity positioning. [24]	Upper-tier benchmark; exclude from direct entry-price averaging.
The Views from Browning / JW Collection Downtown Tucker	Coming soon; 58 gated homes; 3,400+ sf on community page. Elevators and sky terraces. Directory says from the $700,000s. [25,26]	Future luxury supply; not a current $410,000 competitor.

Selection is based on product, geography and plausible shopper alternatives. Exact drive-mile radii and travel times were not measured. These communities should not receive equal weights in a valuation model.

5 | Address-level competitive pricing

Address	Community	Sf	Ask	$/sf
4349 Fern River Bend #31	Fern Parc	1909	$409,950	$214.75
4355 Fern River Bend #34	Fern Parc	1909	$414,950	$217.37
4353 Fern River Bend #33	Fern Parc	1909	$419,950	$219.98
4253 Fern River Trail #12	Fern Parc	1909	$434,950	$227.84
4357 Fern River Bend #35	Fern Parc	1918	$439,950	$229.38
1963 Walton Court	Walton Townes	1726	$460,000	$266.51
1975 Walton Court	Walton Townes	1726	$462,500	$267.96
1977 Walton Court	Walton Townes	1726	$475,000	$275.20
1961 Walton Court	Walton Townes	1696	$478,200	$281.96
1969 Walton Court	Walton Townes	1726	$479,550	$277.84
2564 States Avenue	Towns at Creekside	1810	$449,900	$248.56
2562 States Avenue	Towns at Creekside	1830	$455,695	$249.01
102 Wilder Ridge Way	Rosewood Farm	1967	$349,990	$177.93
96 Wilder Ridge Way	Rosewood Farm	1967	$349,990	$177.93
611 Rosehill Lane	Rosewood Farm	1967	$406,490	$206.65

Sources: Fern Parc [15], Walton [17], Trinity [19], Rosewood [20] and Creekside [21] were rechecked October 10. Fern Parc shows five active and three pending homes. Trinity shows no active results. Rosewood $349,990 homes still show November 30 delivery; 611 is available now. Walton cards contain duplicates and inconsistent bath fields. Creekside pages conflict on whether one or two 24-foot homes are available. These are asks unless expressly labeled otherwise.

Calculated comparisons: Chandler Run's $409,990 Oconee is $216.58/sf. Fern Parc's $409,950 four-bedroom example is $214.75/sf, effectively equal ticket price. The $429,990 Forsyth is $218.60/sf. Walton sampled examples run approximately $267-$282/sf, but the closer-in location and two-story design must be considered.

The two Creekside community-page asks calculate to about $249/sf and sit $19,910-$25,705 above Chandler Run's $429,990 Forsyth. Their smaller finished area and Doraville location limit direct comparability. Trinity Park remains a watchlist competitor, but no active resale was displayed on October 10.

The $349,990 Rosewood Forsyth is $177.93/sf. A buyer willing to accept its Lawrenceville location has a substantial same-plan price alternative. The observed price difference is not proof that Chandler Run is worth $80,000 more or that Rosewood has equivalent options.

6 | Market conditions and sales pace

Gwinnett residential / September 2026	Current	Year-over-year change
Closed units	658	-17.1%
Units put under contract	523	-27.3%
Median sale price	$409,000	-0.7%
New listings	1,288	+5.7%
Active listings	3,597	+14.9%

Georgia MLS September county snapshot remained the latest period on October 10. The live page now reports 658 closings and a $409,000 median, replacing the 640 / $407,995 values captured in the prior edition. This combines residential product types and is not a townhome-only or Chandler Run measure. [27]

Interpretation: contract volume remains the most relevant lead indicator for near-term sales. Closings also declined materially while active supply grew faster than in August. The median was nearly flat year over year, so the statistics support disciplined net pricing but do not justify mechanically applying a county-wide price reduction to an individual home.

A simple active-listings / monthly-closings ratio is 3,597 / 658 = 5.47 months. This is a calculated rough turnover measure for the county snapshot, not published months of supply and not community absorption. It remains above the August calculation of 4.68.

Illustrative five-home clearance	Required net sales	Interpretation
30 days	5 per month	Aggressive scenario; no evidence establishes this pace.
60 days	2.5 per month	Planning scenario only.
90 days	1.67 per month	Planning scenario only.
At 1 net sale/month	5 months	Assumes no additions, cancellations or availability restrictions.

No measured community absorption is claimed. Public listing counts do not reveal releases, off-market contracts, cancellations or unlisted specs. Required inputs: weekly gross contracts, cancellations, closings, released unsold homes, completed-unsold homes and lot releases for at least 13 weeks.

For an October contract or closing plan, reverse-schedule each home from certificate of occupancy, lender approval, appraisal, walk-through and title readiness. A contract by a particular date does not itself guarantee a same-month closing. The 10-sale target is modeled as net contracts; 10 closings would require a separate delivery and lender-ready pipeline.

7 | Pricing to pursue 10 October contracts

Analyst recommendation: use a sharper price ladder for the stated volume objective. These proposed asks supersede the prior report's initial hold-price approach for this scenario. They require margin review and available releases; public evidence cannot predict that any price will produce 10 sales.

Address / position	Observed ask	Proposed test	Reduction
100 Epperly / Oconee interior	$409,990	$399,990	$10,000 / 2.4%
102 Epperly / Oconee interior	$409,990	$399,990	$10,000 / 2.4%
106 Epperly / Oconee end	$463,990	$419,990	$44,000 / 9.5%
6122 Wayburn / standard Forsyth	$429,990	$409,990	$20,000 / 4.7%
6120 Wayburn / premium Forsyth	$459,990	$419,990	$40,000 / 8.7%
Future Tifton / Reynolds interior	Address-dependent	$439,990 initially	Not calculated
Future premium Tifton / Reynolds	Address-dependent	$449,990 ceiling test	Premium must be supported

Five-home gross reduction budget: **$124,000** (5.7% of $2,173,950 observed asks). Proposed aggregate asking proceeds: $2,049,950; average $409,990. This excludes concessions and normal selling costs. It is not an instruction to alter any listing.

Why these tests: $399,990 matches the builder-era Oconee closing and enters searches below $400,000, while the $390,000 September resale argues against restoring a higher entry ask. A $20,000 end-unit gap replaces the unsupported $54,000 ask spread. Standard Forsyth at $409,990 is $10,000 over its two gross closing anchors; premium Forsyth is another $10,000. The $435,000 September Reynolds closing makes $439,990 a modest $4,990 gross premium test; $449,990 needs address-specific support. No matched Tifton closing is available.

Proposed financing budget: reserve up to $10,000 per contracted home (up to $100,000 for 10), choosing lender-priced permanent rate support or eligible closing costs based on buyer need. This is an analyst budget, not a published Taylor Morrison offer. For these five homes, full use would add $50,000 to the $124,000 gross reduction, totaling $174,000 before normal costs.

Review trigger: target 2-3 net contracts weekly; review qualified-visit conversion after seven days. Weak traffic calls for lead/appointment work. If qualified traffic is sufficient but the $399,990 interiors produce no contract, test one interior at $389,990 before extending that price to other homes, subject to margin approval. No conversion threshold is claimed without CRM history.

7A | Capacity and net-price discipline

The five tracked active homes alone do not document 10 available contracts. A verified release list of at least 10 contractable homes and delivery windows is essential. If the target means closings, only three tracked homes are described ready now and the two Forsyths still need completion verification.

Planning input	Calculation / illustrative scenario
Net-contract target	10 in 31 October days = 2.26 net contracts/week across the full month. From October 11-31, 10 remaining would require 3.33/week; actual October net contracts are unknown.
Cancellation allowance	Gross contracts = desired net / (1 - cancellation rate). At an assumed 10%, 11.11 rounds up to 12 gross; not a measured community rate.
Qualified visits needed	For 12 gross contracts: 120 visits at 10% conversion; 80 at 15%; 60 at 20%. These are planning sensitivities, not forecasts.
Net proceeds comparison	$449,990 less $15,000 support = $434,990; $439,990 less $5,000 support = $434,990 before normal selling costs. Payment and cash-to-close can differ.
Decision inputs	Home cost, margin floor, lot/options, lender subsidy cost, actual CRM funnel, cancellations and approved release schedule.

Keep base price, lot premium, options, advertised reduction, lender subsidy and closing-cost credits in separate fields. Gross recorded sales do not reveal net seller proceeds. Do not apply unverified incentives or mechanically subtract concessions as an appraisal adjustment.

Prior maintenance approach for a slower pace was to hold entry anchors and test $439,990-$449,990 on the two expensive three-bedroom homes. The current volume scenario deliberately lowers those proposed tests. Neither approach establishes market value or price elasticity.

8 | Financing and buyer affordability

Freddie Mac reports a 7.40% national 30-year fixed average for October 8, 2026, versus 7.28% on October 1 (+12 basis points). The 15-year average is 6.73%, versus 6.60%. This is a benchmark, not a Taylor Morrison lender quote or a buyer-specific rate/APR. [28]

Price	5% down P&I	10% down P&I	20% down P&I
$399,990	$2,631	$2,493	$2,216
$409,990	$2,697	$2,555	$2,271
$419,990	$2,763	$2,617	$2,326
$429,990	$2,828	$2,679	$2,382
$439,990	$2,894	$2,742	$2,437
$449,990	$2,960	$2,804	$2,493
$463,990	$3,052	$2,891	$2,570

Calculated 30-year principal and interest only; excludes taxes, insurance, HOA, mortgage insurance, closing costs and points. With 20% down at $409,990, a hypothetical 1.20% annual tax load, $125/month insurance and $125 HOA produces about $2,931/month total. Tax and insurance assumptions are illustrative, not parcel quotes.

$429,990 / 20% down / 30 years	Monthly P&I	Difference vs. 7.40%
7.40% note rate	$2,382	$0
7.28% note rate	$2,354	$-28
6.50% note rate	$2,174	$-207
5.99% note rate	$2,060	$-322

At this loan size, 5.99% instead of 7.40% lowers P&I by about $322/month. The October 8 increase from 7.28% to 7.40% adds about $28/month at $429,990 with 20% down. At 7.40%, a $10,000 price reduction with 20% down lowers P&I by about $55/month. Financing can materially improve buyer payment, but its cost and eligibility must be established by the lender.

Incentive evidence: the prior Chandler Run reduced-rate portal deadline was September 30, 2026 and has passed. October 10 public text states only that incentives are available on eligible quick move-ins in select communities when using Taylor Morrison Home Funding. No note rate, APR, credit amount, lock/close deadline or stacking terms are verified. Walton and older RHG incentive claims were not reconfirmed and are excluded from current economics. [29,30,35]

Required quote: home address, purchase price, loan amount, down payment, score assumptions, occupancy, loan type, note rate, APR, points, seller cost, buyer cash-to-close, lock/close deadline and incentive stacking. Compare permanent buydowns separately from temporary payment subsidies.

9 | Positioning and execution plan

Strength to demonstrate	Competitive response
Gwinnett / listed Parkview assignment	Use address-verified school assignment; quantify actual prospect demand rather than assuming a fixed school premium.
Pool and gated setting	Show operational amenities during tours. Fern Parc offers gates; verify whether a pool is part of its offer before making a comparison.
Guest suite and full baths	Demonstrate privacy, office flexibility and the daily use of each level. Compete against Fern Parc's extra bedroom and Walton's two-story layout.
New-home condition and builder warranty	Use exact warranty terms and included finishes. Avoid unsupported assertions about competitor quality.
Proposed entry test $399,990	Lead with an available home and a transparent dated payment worksheet. Explain why the premium homes cost more.

Buyer needs to test: commute location, monthly-payment ceiling, cash-to-close, stair preference, home-office requirement, outdoor-space preference and closing date. These are functional shopping needs; actual buyer origins and segments are unknown without CRM data.

Immediate execution: reconcile the five homes, option lists, incentives, HOA scope and approved lot roll; competitively shop Fern Parc, Walton Townes, Rosewood Farm and Creekside while monitoring Trinity Park for relistings. Inspect parking, guest spaces, construction exposure, rear privacy, pool proximity, noise and end-unit light. Do not assign premiums from photographs alone.

Next 2-4 weeks: record unique qualified traffic, appointments, second visits, gross contracts, cancellations, net contracts, incentive spend and contribution by address. Capture loss reasons with price/payment and competitor address. Review the 10-contract funnel and premium-home tests against the entry anchors.

Weekly measures: net contracts per week; qualified-visit conversion; cancellation rate; completed-unsold age; net proceeds after incentives; price changes per home; lead response and appointment show rate. Keep release timing visible so inventory changes do not masquerade as demand changes.

To finalize the valuation and pace study: export 12 months of active/pending/closed townhomes by address, original/final list, contract/close dates, verified area, stories, end/interior, options, seller concessions and DOM/CDOM. Deduplicate FMLS/GAMLS by property and transaction. Obtain internal net contracts and incentive costs. Expand first around the subject; widen geography only when sample quality requires it.

Not established from public evidence: full townhome market share, months of supply by price band, rental yield, household demand forecast, completed-unsold total, project profitability, remaining sellout duration, or statistically supported amenity premiums. Rental and detached-home alternatives should be analyzed separately once verified property-level data are available.

10 | Sources and evidence register

Research attempted October 10, 2026; status below distinguishes rechecked evidence from carried historical sources. Builder pages and MLS records receive priority; portals can lag or carry inconsistent fields. Calculations and recommendations are independently derived from the stated inputs. Source numbers refer to the pages below.

[1] Taylor Morrison - Chandler Run; September 30 baseline; Oct. 10 full page unavailable | Unavailable Oct. 10; carried baseline only
Open source

[2] Georgia MLS - 100 Epperly; active $409,990, 1,893 sf, HOA and schools | Rechecked October 10, 2026
Open source

[3] Georgia MLS - 106 Epperly; active $463,990, end unit | Rechecked October 10, 2026
Open source

[4] Georgia MLS - 6137 Wayburn; sale $399,990, February 9, 2026 | Carried; historical sale
Open source

[5] Zillow - 98 Epperly; historical price timeline and $399,990 May 8 closing | Carried; historical sale
Open source

[6] Redfin - 6121 Wayburn; $450,000, May 14, 2026; price history | Carried historical sale
Open source

[7] Georgia MLS - 6133 Wayburn; $399,990, May 15, 2026 | Carried; historical sale
Open source

[8] Rains Team - 6120 Wayburn; initiation fee and HOA description | Carried Sep. 30; fee/scope not newly verified
Open source

[9] Homes.com - 102 Epperly; conflicting community total 208 / 212 | Carried Sep. 30; conflicting totals unresolved
Open source

[10] Taylor Morrison - Forsyth; address and plan pricing context | Unavailable Oct. 10; asks verified via [31,32]
Open source

[11] Redfin - 6133 Wayburn; original asking-price history | Carried historical price timeline
Open source

[12] Homes.com - 6123 Wayburn; supplemental portal sold label only | Carried unverified sold label; excluded
Open source

[13] Homes.com - 6105 Wayburn; supplemental portal sold label only | Carried unverified sold label; excluded
Open source

[14] Georgia MLS - 6138 Wayburn; $435,000 closed September 28 | Rechecked October 10, 2026
Open source

[15] Richardson Housing Group - Fern Parc product and amenities | Rechecked October 10, 2026
Open source

[16] Momentum Realty - Norcross listings; page data explicitly September 14, 2026 (stale) | Carried; underlying data dated Sep. 14
Open source

[17] Crawford Creek - Walton Townes price, size, county and plans | Rechecked October 10, 2026
Open source

[18] Momentum Realty - 3512 Mount Blue; $449,900 / 2,194 sf | Carried; prior Trinity listing no longer active
Open source

[19] Atlanta Townhomes - Trinity Park; no active resale displayed | Rechecked October 10, 2026
Open source

[20] Homes.com - Rosewood Farm; updated October 10, 2026 | Rechecked October 10, 2026
Open source

[21] Lennar - Towns at Creekside; pricing and conflicting availability displays | Rechecked October 10, 2026
Open source

[22] Redfin - Towns at Creekside 20-foot collection asking price | Rechecked October 10, 2026
Open source

[23] Redfin - Towns at Creekside 24-foot collection asking price | Rechecked October 10, 2026
Open source

[24] Providence Group - Waterside Townhomes | Rechecked October 10, 2026
Open source

[25] JW Collection - Views from Browning; coming-soon product | Rechecked October 10, 2026
Open source

[26] JW Collection - directory; Views from Browning price tier | Rechecked October 10, 2026
Open source

[27] Georgia MLS - Gwinnett September 2026 county snapshot | Rechecked October 10, 2026
Open source

[28] Freddie Mac PMMS - October 8, 2026, 7.40% benchmark | Rechecked October 10, 2026
Open source

[29] NewHomeSource - Chandler Run; no detailed rate/offer terms exposed; prior Sep. 30 deadline expired | Rechecked Oct. 10; no detailed current terms
Open source

[30] Homes.com - Walton Townes Briarwood; advertised incentive lead | Carried advertised lead; current eligibility unavailable
Open source

[31] Georgia MLS - 6120 Wayburn; reduced to $459,990, October completion | Rechecked October 10, 2026
Open source

[32] Georgia MLS - 6122 Wayburn; active $429,990, October completion | Rechecked October 10, 2026
Open source

[33] Georgia MLS - 102 Epperly; active $409,990 | Rechecked October 10, 2026
Open source

[34] Redfin - 102 Epperly; September 21 asking reduction history | Carried historical reduction timeline
Open source

[35] Homes.com - Chandler Run; updated Oct. 10; eight-home count but only three cards exposed | Rechecked October 10, 2026
Open source

[36] ByOwner / Georgia MLS - 4349 Fern River Bend #31; active $409,950 | Rechecked Oct. 10; active example
Open source

[37] Georgia MLS - 98 Epperly; confirms $399,990 closed May 8 | Carried historical sale
Open source

[38] Georgia MLS - 218 Maycrest; resale closed $390,000 September 25 | Newly verified Oct. 10; primary MLS closing
Open source
