CHANDLER RUN

Visual Comparative Market Analysis & Evidence Appendix

Taylor Morrison townhomes • Tucker, Gwinnett County, Georgia
Public-source research through October 16, 2026 • Previous edition: October 14, 2026

$419,990
CURRENT OFFICIAL ENTRY

$399,990
CONDITIONAL ENTRY TEST

3
CURRENT OFFICIAL CARDS

10
OCTOBER NET-CONTRACT GOAL

Decision summary

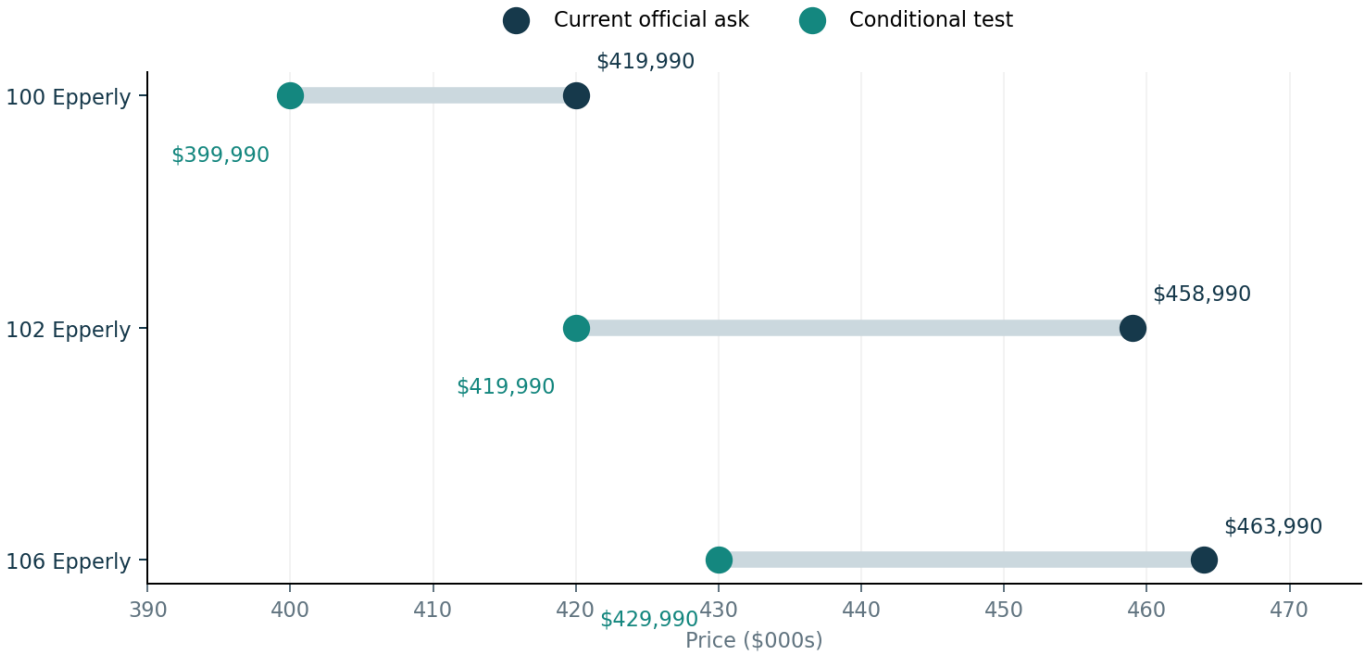

Current official merchandising now centers on three Oconees. 100 Epperly is $419,990, 102 Epperly is $458,990 and end-unit 106 Epperly is $463,990. Two Forsyth cards captured October 14 are no longer on the current community page, while a cached official result still references 6120 and 6122 Wayburn. That conflict is a status-reconciliation issue—not evidence of sales or cancellations.

Home	Official ask	Conditional test	Gross delta
100 Epperly Way	$419,990	$399,990	$20,000
102 Epperly Way	$458,990	$419,990	$39,000
106 Epperly Way	$463,990	$429,990	$34,000

Recommended ladder: $399,990 / $419,990 / $429,990 for the three documented homes, only after margin, options and position review. The $1,249,970 test total is $92,000 (6.9%) below the current official ask total. No public evidence can guarantee ten contracts, and three visible cards cannot support a ten-home release plan.

Asking prices, plan starts, advertised incentive leads, recorded gross closings and analyst tests are kept separate throughout this report.

01 | Current asks versus tests

$1.343M	$1.250M	$92,000
CURRENT ASK TOTAL	TEST TOTAL	GROSS TEST REDUCTION

The three tests average $416,657. They are conditional merchandising scenarios, not approved listing changes or achieved sale prices. Options, end/interior position, lot exposure and net incentive cost must be reviewed home by home.

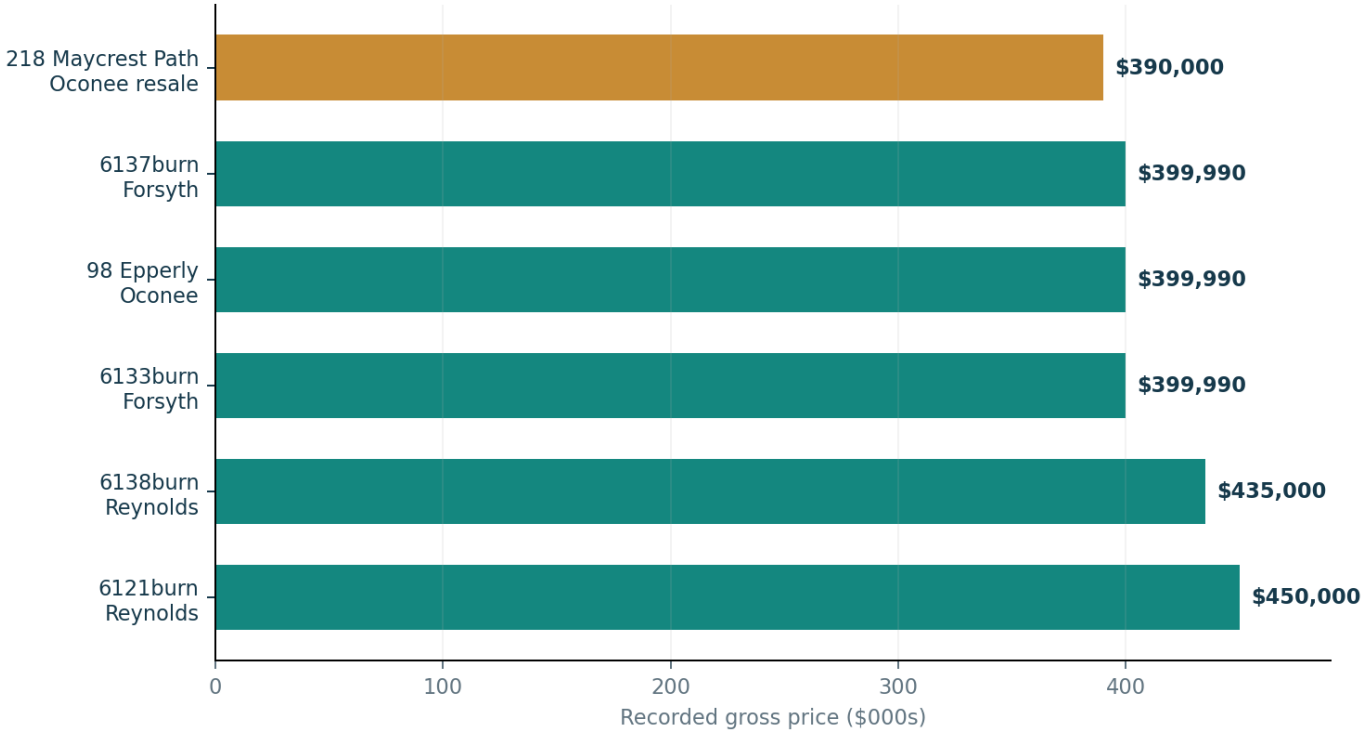

02 | What changed in 48 hours

Evidence	October 14	October 16	Treatment
Official Chandler cards	5 cards; $409,990-$463,990	3 cards; $419,990-$463,990	Use current 3-card roll; flag cached Forsyth conflict.
100 Epperly	$409,990	$419,990	+$10,000 ask; displayed original $456,990.
102 Epperly	$409,990	$458,990	+$49,000 ask; current official card controls.
Plan set	Oconee / Forsyth / Reynolds	Adds Tifton; $453,990 plan start	Plan start only; no released address assumed.
Freddie Mac	7.40% / 6.73%	7.40% / 6.71%	30-year flat; 15-year down 2 bps.
Rosewood entry	$349,990	$365,990	Two Forsyth cards +$16,000 each.

Conflict protocol

6118 and 6120 Wayburn disappeared from the current Chandler community page; a separately indexed official page still references 6120 and 6122. The earlier 6122 portal sold badge is not primary confirmation and now conflicts with a builder card. The report therefore records the current three-home official roll and keeps all Forsyth outcomes unresolved.

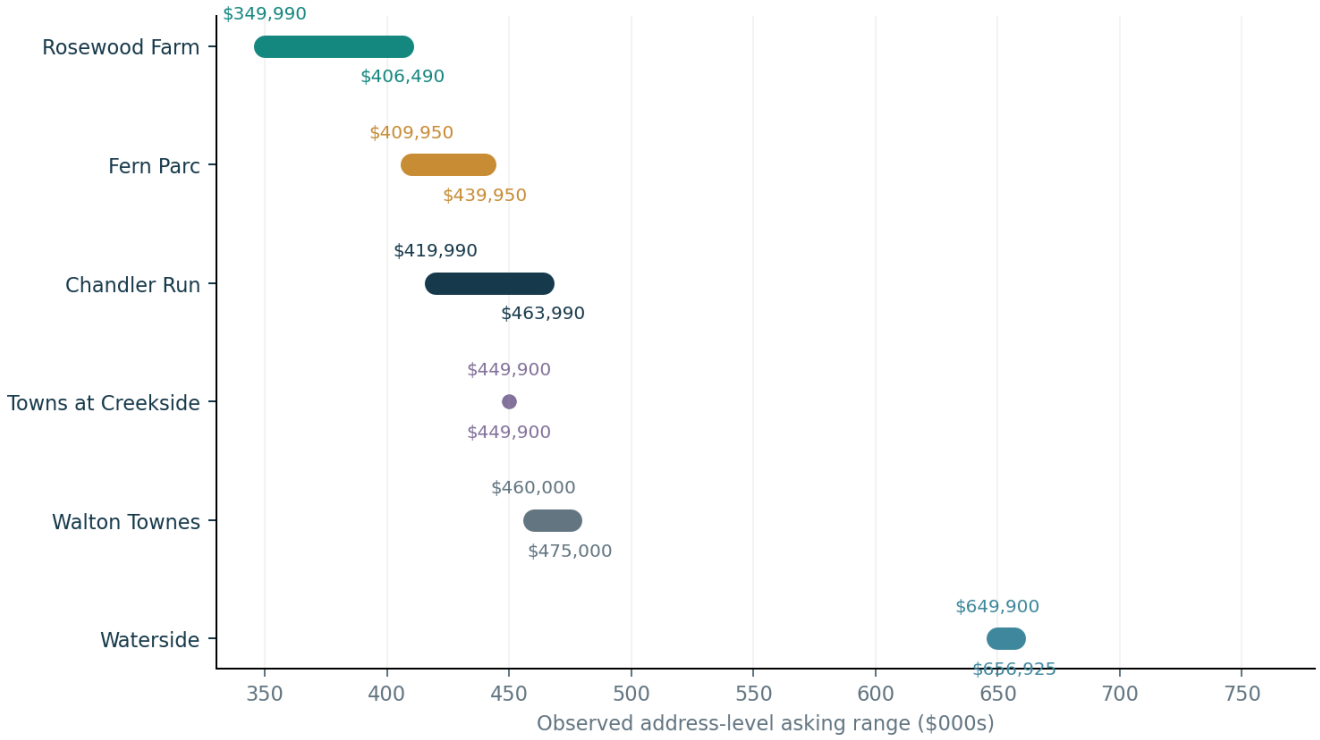

03 | Verified gross closings

Six recorded same-community transactions have a gross median of $399,990 and mean of $412,495. Seller concessions, option value and net proceeds are unknown. The $390,000 Oconee resale is a strong price signal but is not automatically equivalent to new construction.

Address	Plan / type	Date	Gross price	Evidence
218 Maycrest Path	Oconee resale	Sep. 25, 2026	$390,000	Primary MLS closing
6138 Wayburn Street	Reynolds	Sep. 28, 2026	$435,000	Primary MLS closing
6137 Wayburn Street	Forsyth	Feb. 9, 2026	$399,990	Primary MLS closing
98 Epperly Way	Oconee	May 8, 2026	$399,990	Primary MLS closing
6121 Wayburn Street	Reynolds	May 14, 2026	$450,000	Historical closing; MLS / portal history
6133 Wayburn Street	Forsyth	May 15, 2026	$399,990	Primary MLS closing

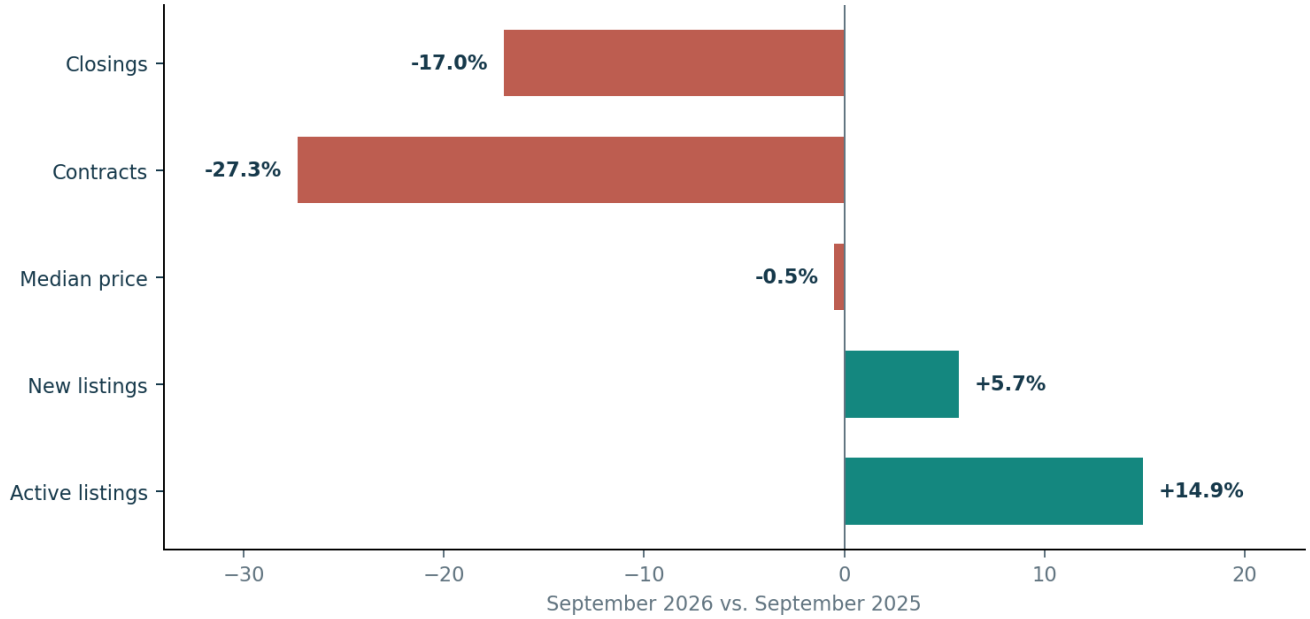

04 | Competitive asking shelf

Fern Parc and Walton Townes were rechecked October 16 and their sampled asks remain unchanged. Creekside still exposes one address at $449,900. Higher-priced Waterside and The Views from Browning are tier/context references, not entry-price averages. Listing counts are not absorption.

Competitive set	Observed public evidence	Analyst use
Fern Parc	$409,950-$439,950; five active asks	Direct price/size cross-shop; two pending cards do not establish pace.
Walton Townes	$460,000-$475,000; four unique asks	Two-story / DeKalb tradeoff; duplicate cards excluded.
Towns at Creekside	2564 States Ave $449,900	One current address; no pace inference.
Rosewood Farm	$365,990-$406,490	Same-plan lower-price alternative in Lawrenceville.
Trinity Park	No current address ask exposed	Resale watch only; absence is not zero inventory.

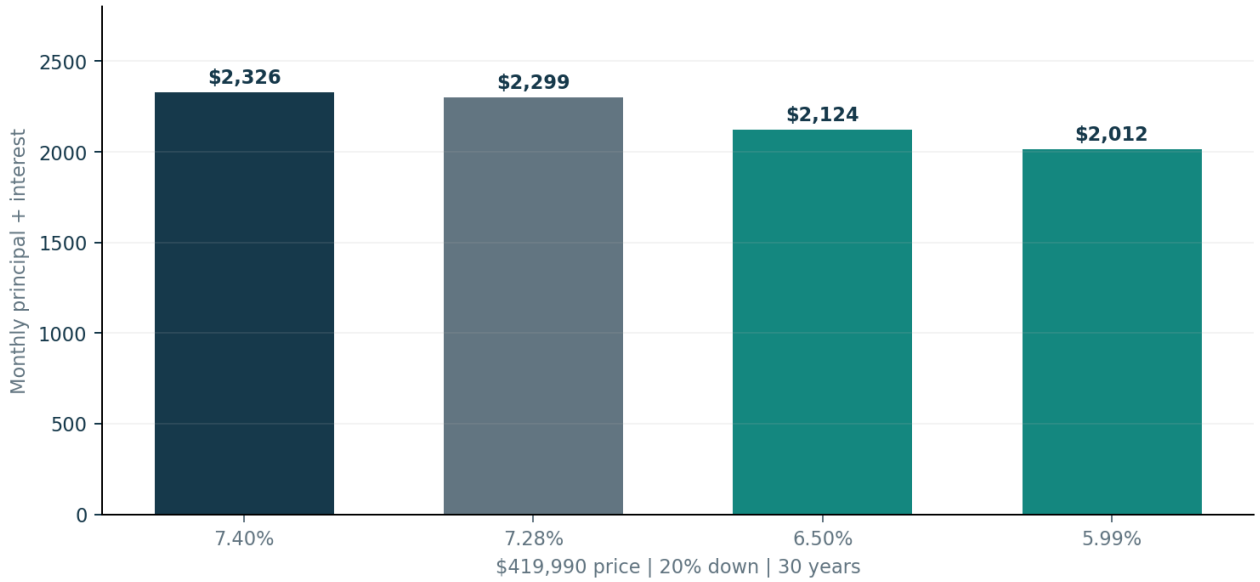

05 | County demand and mortgage benchmark

Gwinnett Sep. 2026	Current	YoY
Closings	659	-17.0%
Contracts	523	-27.3%
Median price	$410,000	-0.5%
New listings	1,288	+5.7%
Active listings	3,597	+14.9%

3,597 active / 659 September closings = 5.46, a calculated countywide turnover ratio—not published months of supply and not Chandler Run absorption. County data combine residential product types.

05B | Payment sensitivity

Freddie Mac PMMS as of October 15: 30-year 7.40%, unchanged; 15-year 6.71%, down from 6.73%. At $419,990 with 20% down, modeled principal and interest is about $2,326/month at 7.40% versus $2,012 at 5.99%. This excludes taxes, insurance, HOA, mortgage insurance and points.

06 | Ten-contract scenario

4.38 / week	12 gross	80 visits
PACE IF ALL 10 REMAIN	10% CANCELLATION SENSITIVITY	15% CONVERSION SENSITIVITY

The original objective is ten **net contracts in October 2026**, not ten closings and not ten guaranteed sales. From October 16 through October 31, ten remaining would require 4.38 net contracts per week. Actual month-to-date results are unavailable.

Planning input	Illustrative calculation	Required verification
Release capacity	At least 10 contractable homes	Current public roll exposes 3; reconcile 6118/6120/6122 and internal releases.
Gross contracts	10 / (1 - 10%) = 11.11 → 12	Use actual cancellation rate; 10% is an assumption only.
Qualified visits	12 / 15% = 80	Use CRM-qualified visits and actual conversion.
Closing capacity	Separate schedule	CO, appraisal, lender, walkthrough and title readiness by address.

Execution gate

Do not launch a ten-home price ladder until the released-home roll, exact options, margin floors, delivery readiness and lender economics are reconciled. Track gross contracts, cancellations, net contracts and closings separately each week.

Appendix A | Scope, hierarchy and limitations

Priority: current official builder card → public primary MLS detail → builder-syndicated structured card → corroborated historical/portal record → analyst calculation. Conflicts are disclosed; older indexed evidence is not silently promoted over a current official page.

Category	What is included	What is not inferred
Asking inventory	Unique address cards with price, plan, size, delivery and position when exposed	Full internal releases, cancellations or absorption.
Closings	Recorded gross prices with primary or clearly labeled historical basis	Concessions, net proceeds or complete sellout history.
Incentives	Dated advertised leads and missing numeric terms	Actual buyer concession or universal eligibility.
Market	Countywide Georgia MLS and national Freddie Mac benchmarks	Townhome/community demand or buyer-specific loan terms.
Recommendations	Conditional price and funnel tests	Guarantee, approved price action or appraisal conclusion.

School assignment, taxes, insurance and HOA scope should be confirmed against address-specific official records and governing documents. No buyer was contacted and no listing, price or builder system was changed.

Appendix B | Current Chandler inventory

Address	Plan / position	Sq. ft.	Current ask	Prior / displayed	Delivery	Evidence basis
100 Epperly Way	Oconee / Interior	1,893	$419,990	$456,990	Ready now	Official builder current community card; displayed $37,000 reduction; Open House this Weekend
102 Epperly Way	Oconee / Interior	1,893	$458,990	—	Ready now	Official builder current community card; Open House this Weekend
106 Epperly Way	Oconee / End unit	1,893	$463,990	—	Ready now	Official builder current home card; end unit / backs to amenities

Plans and community charges

Plan	Sq. ft.	Current role
Oconee	1,893	Official plan; address availability varies
Forsyth	1,967	Official plan; address availability varies
Tifton	2,340	Official plan; address availability varies
Reynolds	2,375	Official plan; address availability varies

HOA: $125/month from the official payment calculator. Historical $1,500 initiation-charge evidence remains unverified in current governing documents. Official pages promote a Lattes & Listings event and eligible-QMI financing through Taylor Morrison Home Funding; a syndicated page references a limited-time reduced rate. Current note rate, APR, points, credit, deadline, eligibility and stacking terms were not exposed. Treat these as unpriced leads, not concessions.

Appendix C | Pricing economics and payments

Price	20% down P&I; @ 7.40%	20% down P&I; @ 5.99%	Difference
$399,990	$2,216	$1,916	$299
$419,990	$2,326	$2,012	$314
$429,990	$2,382	$2,060	$322
$458,990	$2,542	$2,199	$343
$463,990	$2,570	$2,223	$347

Principal and interest only. The 5.99% column is an analyst illustration, not a verified Taylor Morrison offer. A real quote must include note rate, APR, points, seller cost, buyer cash-to-close, lock/close deadline, product eligibility and stacking.

Home	Current ask	Conditional test	Reduction	Test P&I; @ 7.40%
100 Epperly Way	$419,990	$399,990	$20,000	$2,216
102 Epperly Way	$458,990	$419,990	$39,000	$2,326
106 Epperly Way	$463,990	$429,990	$34,000	$2,382

Appendix D | Portfolio snapshot

Community / county	Status	Current captured asks	Range	48-hour headline
Chandler Run / Gwinnett	Active builder sales	3	$419,990–$463,990	Current official community page now exposes three Oconees, down from five cards on October 14; 6118 and 6120 Wayburn are absent. A cached official result still references 6120/6122, so Forsyth status is unresolved and no sale or cancellation is inferred.
Rosewood Farm / Gwinnett	Active builder sales	3	$365,990–$406,490	102 and 96 Wilder Ridge each increased $16,000 to $365,990; 611 Rosehill remains $406,490.
Dreycott Townhomes / Gwinnett	Active builder sales	6	$389,990–$485,990	Six official address cards remain at $389,990-$485,990 with no substantiated price change.
Weatherfield Townhomes / Hall	Active builder sales	3	$329,990–$380,990	Three exposed address asks remain unchanged: 3695/3703 Sagecrest $380,990 and 3632 Aveline $329,990.
Somerset at Veterans Memorial / Cobb	Active builder sales / near closeout	2	$379,990–$389,990	Two current asks remain unchanged: 5818 Schelton $379,990 and 5760 Schelton $389,990.
Alder Creek / Forsyth	Active builder sales	6	$489,990–$495,990	Three current builder-syndicated Dawson cards remain $489,990-$492,990; three Meadow Ridge cards are carried from NewHomeSource and require status reconciliation.
Henson Square / Gwinnett	Sold-out reference / resale	2	$440,000–$445,000	Sold-out resale/reference status retained; no builder inventory was added.
Auburn Glen Towns / Gwinnett	Sold-out reference / resale	0	—	Official sold-out resale/reference status retained.

Captured address cards are not total released inventory. Henson Square and Auburn Glen Towns remain sold-out resale/reference tabs. Weatherfield uses Hall County context. The roster is Atlanta-area Taylor Morrison townhomes only; detached collections are excluded.

Appendix E | Dated change log

• October 16 vs October 14: Chandler current official/community cards contract from five to three; 100 rises to $419,990 and 102 to $458,990. Cached Forsyth cards conflict, so removals are not called sales, cancellations or absorption.

• Rosewood entry asks at 102 and 96 Wilder Ridge rise $16,000 each to $365,990. Dreycott, Weatherfield, Somerset and the current Alder cards show no substantiated ask change.

• Chandler adds Tifton to the official plan set at a $453,990 start. Plan starts remain separate from address asks and no released Tifton home is assumed.

• Freddie Mac October 15 PMMS is 7.40% / 6.71%; Georgia MLS revised Cobb to 620 closings / $417,750 median and Forsyth to 212 / $579,950. Gwinnett and Hall are unchanged.

• No new primary Chandler gross closing was verified. New portal sold badges across communities remain excluded pending primary confirmation.

• Official Atlanta research did not substantiate a new townhome community; six active communities and two sold-out resale/reference tabs remain.

Chandler action checklist

• For the documented entry home, test 100 Epperly at $399,990 after margin review: $20,000 below today's ask and aligned with the six-sale gross median rounded to $399,990.

• Test 102 Epperly at $419,990 and 106 Epperly at $429,990, subject to matched option and position review. This compresses the current $39,000-$44,000 premiums over the entry ask without assuming the homes are identical.

• The three documented tests total $1,249,970, $416,657 average: $92,000 / 6.9% below the $1,342,970 current official ask total. This is a conditional merchandising test, not achieved ASP or an instruction to change listings.

• Do not build a ten-contract plan from three visible cards. Reconcile 6118/6120/6122 and obtain a verified release list of at least ten contractable homes before setting a unit-by-unit ladder.

• If all ten October net contracts remain as of October 16, the remaining 16 calendar days imply 4.38 net contracts per week. At illustrative 10% cancellation and 15% qualified-visit conversion, 12 gross contracts and 80 qualified visits would be required; these are sensitivities, not forecasts.

Unresolved evidence gaps

• Month-to-date net contracts, cancellations, qualified traffic, release plan and certificates of occupancy are unavailable.

• 6118/6120/6122 Wayburn status conflicts across current and cached public pages; no outcome is inferred.

• Actual contract concessions, lender rate/APR/points, stacking, net proceeds and lot-option costs are unavailable.

• No October 16 primary same-community gross closing was verified.

Appendix F | Source register

Sources were read or rechecked through October 16, 2026. Builder and MLS evidence controls; portal counts and badges are explicitly lower confidence. Links are provided for auditability.
